

The right solution for your success

You know what it needs in your trade. The flexibility, speed, innovation and continuous improvement of all products and services. Secure your essential lead with us now.

We offer quick and easy complete drive systems and components from one source. Your design will be easier and more competitive. We assure the highest flexibility thanks to our own production.

As a drive systems and components specialist, we deal with the development, manufacture and distribution of standard or special versions of gear components, chain wheels and chains, screw jacks, bevel gearboxes, linear actuators as well as other special type components and drive systems. We produce our products in our Swiss headquarters in Pfäffikon ZH.

New online area

You will find further information on our website www.nozag.ch. There you will find new and quicker access to more product information. Technical details as well as helpful CAD drawings are ready for you to download.

Quick delivery

Many components from stock and individual components in the shortest of time.

[More >](#)
