

11th January 2017

New Year - new challenges - new solutions

We wish you a healthy and successful 2017!

After barley having mastered all challenges, had a well-earned break and completed the old year, everything restarts from the beginning. New and exciting things await you, as well as technical challenges and innovative technologies.

It's not as bad as that - we will be at your side again this year! We will get momentum into your standing drives, get solutions moving forwards for you or help to lift your ideas up to heaven. A real drives partner as you imagine and have been used to up to now.

This year, Nozag is also getting lots of things moving, so that you can find drive solutions and solve drive challenges. Nozag supports you in the field of drive technology from [engineering](#) through calculations, designs to [production](#), finishing and pre-assembly.

Please mark the date

«All about automation» - 8th - 9th March 2017 in Friedrichshafen / Visit Nozag in Hall A2, Stand 230

Drive components from Nozag – Range extract

In addition to finished gearboxes and drives, you will also find a wide range of standard parts, which can be work on, ready to install. We are also happy to develop and produce custom-made products for you.
