## Corrosion-protected screw jacks for extreme environmental and operational influences

The screw jack "Gold" is successfully used in contact with aggressive substances, oxidation or other acidic or alkaline environments. It is of course available in various sizes and designs.

### NOZipedia – your source for your own calculation

You know what we are talking about! For example, Formulas were once learned, rarely used and unfortunately forgotten again. But where can I find these, if I would want to use them again? Of course on the web - and from now on neatly arranged with the most important facts, combined and logically arranged on Nozag's website.

## Different methods lead to the calculation of your drive solution

**The "no time" type:** Let Nozag do the calculations. Provide the information and easily and comfortably get the finished numbers. This service is of value to you, so you will carry the expenses. [>> Try it out here](#)

**The "D.I.Y." type:** You know how to do it, but you still lack that small detail, e.g. Formulas, values, or other little bits and pieces. Then simply pick up the necessary tools on our **NOZipedia** for [Standard Program](#) or for [Standard Drives](#) and provide us the finished facts for production.

**The "this is something big" type:** You are already aware that your project has an attractive volume and the order is only a matter of form. But you want security and service. [You can get this from us](#), free of charge, with the corresponding order volume.

## Drive components from Nozag – product range extract

In addition to finished gearboxes and drives, you will also find a wide range of standard parts, which can be work on, ready to install. We are also happy to develop and produce custom-made products for you.
