New year with new added value and more service for you

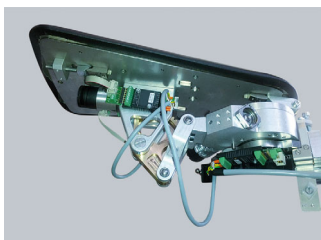

The year is still young and we are already giving you a treat. On the one hand, we will inform you about the first activities and fairs to come. On the other hand, we offer you a service that makes your everyday life easier - We have expanded and expanded [NOZipedia](#). Take a look!

Furthermore, this year we will once again set a lot in motion to solve your challenges and drive wishes perfectly and with a lot of innovation.

New, anytime online calculations with NOZipedia

The database for formulas relating to drive technology has been further developed. Calculate directly online, gear dynamics and modules or chains, chain drive torques as well as torques for worm gear screw jacks. With NOZipedia you can easily make your first calculations yourself, around the clock!

Tailor-made solutions, quickly and at attractive costs

Your problem. Our solution. Your benefit. Where available standard solutions are not available or do not meet your requirements, take advantage of our know-how. Together with you, we will find the optimum solution for your drive situation. Special drive solutions have already been developed for many other customers.

Drive Components from Nozag - Extract from the Product Range

In addition to complete gearboxes and drives, you will also find a wide range of standard parts, which we also further process ready for installation. We are also happy to develop and produce special designs for you.
