

Providing the supply of drive components thanks to our own production in Switzerland

The current situation with Covid-19 also demands more and more flexibility from the industry. Short and secure delivery routes are becoming more and more important. Even in the current situation, NOZAG can offer you a reliable [manufacturing and delivery*](#) service for drive components, thanks to our own Swiss production here at Pfäffikon/ZH. Our raw material stock is filled to ensure that the supply, of e.g. [spur gears](#), [bevel gears](#), [worm gears](#) and other [standard gearing components](#) and much more, works for you and to you.

We are happy to be your Swiss partner and provide the delivery*. Please note our range of [standard drive parts](#) or [lifting gear](#). We are looking forward to your inquiry.

* Provided that the supply chain of the logistic companies stays maintained.

Employees produce under the recommended protective policies

Today's priority is the safety and health of our customers and employees. We therefore strictly adhere to the instructions of the [FOPH / SECO](#). We have adapted our production and the workflows accordingly so that everyone has the greatest possible protection. We are also concerned and want to prevent the spread of the Covid-19.

Consultation & Information

We shall continue to be at your disposal with our competence and also for longer development cycles. Due to the situation it is not possible by personal contact, but you can reach us at any time by phone or mail.
