

ATEX screw jacks for potentially explosive atmospheres

Nozag offers [non-rotating](#) or [rotating](#) screw jacks also in accordance with ATEX directives 2014/34/EU. Besides increasing personnel safety, they also ensure a smooth production process in hazardous areas. These maintenance-free screw jacks are available in various versions. They are suitable for all Ex zones. Tell us your ATEX requirements, we have the drive you need – even in small series.

[Click and directly fill in our ATEX check list. We do the rest.](#)
