

Successful drive thanks to the proper detail

How does the saying go in everyday life? "The solution lies in the detail". This is true also for drive solutions: generally, customer satisfaction is achieved with single components, small units or customized versions. Nozag has been ensuring this satisfaction for over 50 years thanks to its experience and competence in gear and transmission components.

A wide range of products allows customized solutions for the equipment

The suitable single gear, the optimal worm gear or the required movement driven by a screw jack ensure success. Nozag supported many customers and projects with the required engineering, creating small and large tools for production. This equipment allowed relieving employees, accelerating the process and increasing the profitability.

Simplify coil replacement! Another example of e.g. how a screw jack facilitates the process in the packaging industry. Young professionals developed a lift truck that fully automatically picks up aluminum coils and brings them in position. Implemented successfully with the collaboration of Nozag – supply of the product and fine-tuning.

[>> Further processing – standardized parts produced ready for installation](#)

A ball screw drive allows simple and efficient control of a filling plant

Sometimes, existing drive components need to be replaced with an up-to-date technology. This was the case of this filling plant that used a cam disc in the drive section, requiring very complex adjustments. Thanks to a screw jack with the suitable ball screw, everything is now controlled electronically, easily and without effort.

Many thanks for having placed your trust in Nozag in 2022

We wish you a successful year-end spurt and restful holidays, and we thank you for your interest and the good cooperation during the year 2022. We hope that we inspired you once more and spurred you for new ideas and solutions.

We wish you a pleasant time for this Christmas period and the turn of the year, as well as restful days with your family and friends. Our Company will be closed from December 24, 2022 until and including January 2nd, 2023. Have a good start in the new year. We are looking forward to be your competent and reliable technology partner also in the coming year.
